Mike:

This email confirms that I'll be at your office on Thursday, August 13th, at 9:00.

The meeting purpose is to provide a copy of the USEPA Class V UIC permit application.

George Robin with EPA requested I provide DOGGR with a copy of the UIC application.

Also, I'll provide a brief project update.

I look forward to our meeting, and if you have any questions either email or call.

Thanks, Wayne.

Wayne A. Hamilton

Subject: RE: Meeting request

Wayne,

Meeting on the 13th at 9am works for everyone but Hal. Hal is out of the office on the 12th and 13th, but Pam Ceccarelli from his office will attend.

I'll be out of the office the remainder of the week; however, I will be monitoring my emails if you have any questions. Call me after this week if you have any questions.

Hal:

Good note---

Explains my meeting request to provide a courtesy copy of USEPA Class VI permit at the request of George Robin.

USEPA will be lead agency, and Robin wanted to make certain DOGGR was aware of our UIC application.

Either 8/11 or 12 is good for me to meet in Sacramento.

Concerning Water Board, I'll contact Shelton Gray, since he is familiar with UIC work, and can direct me to correct person.

I look forward to our meeting.

Thanks, W.

Mike -

You may recall that we met with Wayne Hamilton, Shell Oil Company, and discussed a "Class VI" pilot injection project in the Solano County area. Shell has moved further along with the project and is in the process of filing their project applications, including filing with USEPA who

would clearly be lead for this. George Robin has suggested that they meet with us and with the RWQCB to provide courtesy copies.

Wayne is available on August 11 or 12. I would prefer the 11th, since I'll be on vacation the 12th; but I think it's more important that Wayne meet with you, Mike, so whatever day works best - please let us know.

Linda Campion advised me that we have two contacts for the Central Valley side of Solano County, and they are attached. Wayne, if all else fails you could contact Shelton Gray, in the Fresno office - he kind of serves as our "liaison" for oil and gas activities throughout the state, and his number is 559-445-5508.

Everyone, let's treat this as confidential information for now.

Hal Bopp
